Energy rating 16 Sandy Lodge Yate **BRISTOL BS374HE** Certificate number Valid until 10 June 2024 0269-2860-6164-9994-6661 Mid-terrace house **Property type**

English

Cymraeg

For properties in England and Wales:

• the average energy rating is D • the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition. Assumed ratings are based on the property's age and type. They are used for

features the assessor could not inspect.

Description Rating Cavity wall, as built, no insulation Wall Poor

Fully double glazed Window Average Main heating Boiler and radiators, mains gas Good

Main heating Programmer, room thermostat and TRVs Good control From main system Hot water Good Low energy lighting in 17% of fixed outlets Lighting Poor Suspended, no insulation (assumed) N/A Floor N/A Secondary heating None Primary energy use The primary energy use for this property per year is 174 kilowatt hours per

• Dwelling has access issues for cavity wall insulation

Additional information

Additional information about this property:

Cavity fill is recommended

An average household would need to spend £577 per year on heating, hot

water and lighting in this property. These costs usually make up the majority of your energy bills. You could save £132 per year if you complete the suggested steps for

Heating this property

• 1,966 kWh per year for hot water

This property's environmental impact rating is C. It has the potential to be B.
