Rules on letting this property

You can read guidance for landlords on the regulations and exemptions.

Properties can be let if they have an energy rating from A to E.

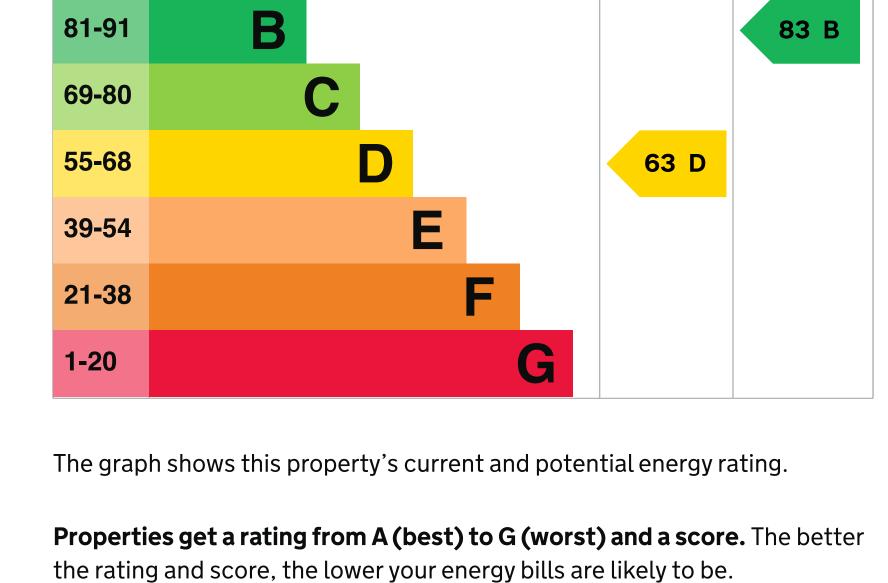

Energy rating and score

See how to improve this property's energy efficiency.

Energy rating Score Current

This property's energy rating is D. It has the potential to be B.

92+

For properties in England and Wales:

• the average energy rating is D • the average energy score is 60

Breakdown of property's energy

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their

performance

condition.

Wall

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect. **Feature Description** Rating

Cavity wall, as built, no insulation (assumed) Cavity wall, as built, insulated (assumed) Wall Good

vvall	Cavity watt, as built, insulated (assumed)	dood
Roof	Pitched, 50 mm loft insulation	Poor
Roof	Flat, insulated (assumed)	Average
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A
Primary energy use The primary energy use for this property per year is 266 kilowatt hours per
